

Beagle-06P

Neonatal digital radiography system solution

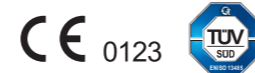

Main Components	Technical Specifications	
Flat Panel Detector	Size	10x12/14x17 inch
Generator	Standard Power	5.6 kW
	kV Range	40~125 kV
	mA Range	10~100 mA
	mAs Range	0.1~200 mAs
X-ray Tube	Anode Heat Capacity	42 kHU
	Dual Focus	0.6 mm/1.8 mm
Collimator	Inherent Filtration	1 mm Al/70 kV
Touch Screen	Dimension	8 inch
Physical Specification	Weight	90 kg
	Fold Dimension	670X600X1430 mm (LxWxH)(±5%)
	Max SID	2000 mm
	Lithium Battery	32.4 V, 5.4 Ah

Beagle-06P

Neonatal digital radiography system solution

The brochure includes both standard & optional configuration, we do not guarantee that the optional configuration would be included in the product of your choice.

Beatle-06P

Neonatal digital radiography system solution

Beatle-06P is a solution for neonatal department, which effectively solves the specific radiography needs of newborns, such as low-dose exposure, small space occupation, simple, quick and easy operation.

Flat Design, Small Occupation

The whole system adopts flat design and folding arm, which is easy to move and position in a small space and meet the operation requirement of neonatal ICU.

Low Dosage, High-index Image Chain

Small power generator and small detector suitable for all kinds of incubators significantly reduce newborn baby's radiation dose to protect safety.

Integrated Design, Easy Operation

Easy and simple operation thanks to integrated X-ray monoblock, 15.6 inch capacitive touch screen and special image workstation for newborns.

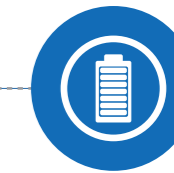

According to the clinical needs, two kinds of stands for options.

Infinite Intelligence

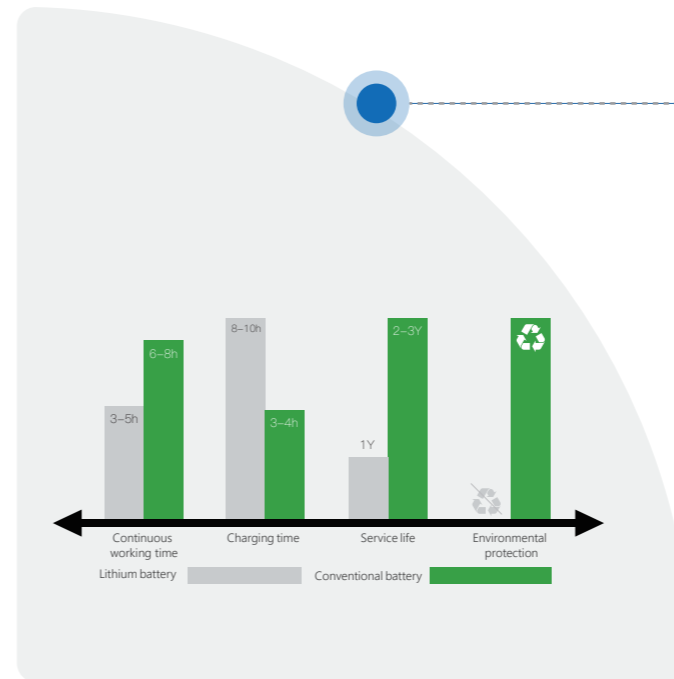

The integrated X-ray machine can be controlled by both the workstation and touch screen.

8 inch visual touch screen can offer friendly human-computer interaction.

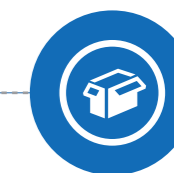

New Power Supply

Be able to work both from mains and battery power, Beatle-06P is equipped with lithium battery, which is environmentally friendly.

Omni-directional Compatibility

Beatle-06P is suitable for all kinds of incubators to achieve all-round positioning with high SID.

Lockable accessory case

Portable workstation and flat panel built-in storage.

Lockable accessory case can provide great security.
